

INFORMATION REQUIRED FOR FILING A TRADEMARK

In this sheet we summarize the information we need for preparing the forms due for filing a trademark application. This data will contribute to a well drafted application that will help you obtain the ultimate and best protection possible.

It is for that reason that it is so important that you answer all the sections in a clear, short and precise manner. It is essential that we can understand without a doubt the products and/or services that you want to identify in the market using the trademark you are going to register. Furthermore, if possible, it would be convenient, in the event the trademark application includes colors, typography and/or logos, you also submit representations of said elements.
